Industrial Chemistry Conference

November 12-14, 2014 | Edmonton, Alberta

The Industrial Chemistry Conference is presented by the Chemical Institute of Canada (CIC), the Canadian Society for Chemical Technology (CSCT) and the Association of the Chemical Profession of Alberta (ACPA). The conference is designed for individuals working in the analysis community: chemists, chemical technologists, chemical engineers, managers and researchers working in government, private and industrial laboratories, and students and recent graduates.

Special attention will be given to the oil and gas industries including upstream (exploration, production and mining), midstream (transportation) and downstream (upgrading and refining) operations. The first day and a half will feature a technical program covering two streams: **Process Chemistry** and **Environmental Chemistry**, and will explore regulatory matters, novel sampling methods and applications including analysis of drinking water, wastewater, soils/sediments and others. The second day and a half will be dedicated to professional development courses/workshops. Speakers will include researchers and practitioners from government, industry and academia.

Symposia Organizers

Process Chemistry

Kathy Janzen, ACPA

Ken Schmidt, Wilson Analytical

Fiona Hess, Ineos

Chris Swyngedouw, Exova

Environmental Chemistry

Jason Brisbois, University of Alberta Water Initiative

Julius Pretorius, Alberta Innovates

Phil Heaton, Maxxam

Chris Le, University of Alberta

Courses

Thursday, November 13, 2014 (Afternoon Only)

Chemistry of Flow Assurance: Abdel Kharrat, ACPA

Inline Process Measurement: Sampling, Instrumentation, and Data Analysis: Ken Schmidt, ACPA

Friday, November 14, 2014 (Full Day)

Industry Process Water, Chemical and Environmental Assessment: Jason Brisbois, University of Alberta Water Initiative, Chris Le, University of Alberta

Exhibition

Wednesday, November 12, 10:30-18:00

Thursday, November 13, 10:00-13:00

West Edmonton Mall & Fantasy Land Hotel

The Fantasy Land Hotel is located in North America's largest shopping and entertainment complex, the West Edmonton Mall. The hotel features 235 classically decorated guest rooms and 120 fantasy-themed rooms designed to recreate a specific place or era. The West Edmonton Mall is Alberta's number-one tourist attraction.

Organizing Committee

Donna McMahon, Conference Chair, Suncor Energy / CSCT President

Abdel Kharrat, Conference Technical Program Chair, Director, ACPA

Kathy Janzen, Executive Director, ACPA

Ken Schmidt, President, Wilson Analytical

Charles Brimley, Chief Executive Officer, Canadian Association for Laboratory Accreditation (CALA)

Roland Andersson, Executive Director, CIC
